FRANK BENGE FOUND GUILTY

Was Charged With Violation of Booze Law—Fined and Paroled—Speculation as to Disposition of Liquor.

Judge John M. Dawson rendered a decision in the case of Frank Benge, charged with storing liquor, in circuit court Saturday afternoon, in which Benge was found guilty and his fine placed at $300. A parole was granted on payment of costs in the case.

Benge was arrested last fall by Sheriff Dowden, following the finding of some five or six hundred quarts of liquor stored in a cave on the Mike McGettigan farm north of town and on which Benge was a tenant. The liquor was taken by the sheriff and is now stored in the vault in his office. It was reported several times that an effort would be made by the owners of the liquor to recover it from the sheriff but no action has ever been started.

Sheriff Dowden has accumulated a considerable quantity of "red licker" and there has been a deal of speculation as to what disposition will be made of the stuff.

THE TAX QUESTION

GARDNER'S PLAN RECOMMENDED BY COMMISSION IN 1907

POINT OUT ADVANTAGES

Complete Separation of Sources of State and Local Revenue Would Result in Practical Home Rule.

Jefferson City, Mo., Feb. 10.—While the bill introduced by Representative Wilson of Henry county, a democrat and a farmer, to abolish the state tax commission, was ordered engrossed by the house with only one dissenting vote, and would undoubtedly be easily passed if it were to come before that body now for final action, it is not considered likely it would receive such speedy action in the senate.

While Gov. Gardner's new tax proposal is a virtual abandonment of the commission, it is believed before the bill gets final action in either house or senate, some of its friends will make a fight to continue it. It is likely members of the state board of equalization , which undid the work of the commission on valuation, will be summoned to explain their action.

The report of the tax commission on valuation will be submitted to the governor the latter part of this month, and he will send a special message to the legislature that is expected to be an indorsement, in part, of its work, though he has decided to abandon the system of taxation for which the commission has been working. It is thought by many friends of the governor he is intending to recommend that the work of the commission be continued in modified form as an aid to local taxing bodies, if his new plan of separating sources of taxation is adopted.

It is pointed out by Gov. Gardner that his new tax plan was recommended in 1907 by a commission appointed by former Gov. Folk. This commission was composed by Frederick N. Judson of St. Louis, Judge William E. Williams of the supreme court, former Attorney General E. C. Crow, Attorney General and afterwards Governor, Herbert S. Hadley, and Prof. Loeb of the state university, and John H. Bothwell of Sedalia.

The commission recommended a constitutional amendment. This amendment later was submitted to the people and failed in adoption. Gov. Gardner does not believe that in view of the supreme court decision on the income and corporation franchise taxes, a constitutional amendment to change the taxing system is necessary. The only constitutional limitation is that the rate for state taxes shall not exceed 15 cents on the $100. It is not mandatory on the legislature to raise a state tax.

The commission in its report, in 1907, said regarding the proposed tax system:

"We are all agreed that the first step in any tax reform is the separation of the sources of state and local revenues. This change would not require the exemption of any class of property from taxation.

"The advantages which, in our opinion, would result from the proposed change, are as follows:

"First. Complete separation would abolish at once the expense, friction and vain attempt to equalize among different counties.

"Second. When separation is effected it will be possible to place each tax in that branch of the government, local or state, which is best adapted to administer it.

"Third. The local taxing districts, the counties and cities of the state, will then have practical home rule in matters relating to taxation.

"Fourth. Equality in taxation, both state and local, can then be secured by making all taxation effective."

MAN NEEDED FOR SCOUT WORK

Two Troops Were Reorganized Yesterday in Order to Carry Out Scout Program.—A Contest.

Troops 1 and 2, Boy Scouts, have started a membership drive contest in an effort to bring both troops to the maximum number of thirty-two scouts. The contest was started last fall but because of the "flu" epidemic was dropped for a time. The contest will eend with the first meeting night in March. The winning troop will be given a handsome troop flag, the winning patrol will be given a patrol flag and the Scout who secures the largest number of new applications will be given a prize of scout equipment.

At a meeting yesterday afternoon the two troops were reorganized and each troop now has the same number of members. The boys would appreciate the gift of any article of furniture or decoration that would help to make their new rooms comfortable and attractive. Assistant scoutmasters are also needed—older men who take an interest in boys and who can spare some time to the work.

Weiringen, Holland, Feb. 10.—One of the most remarkable statements on the war yet coming from Frederick William, late crown prince of Germany, who is living here, was secured by the International News Service. Among the striking features of the statement made by him were that he wanted to make peace after the first two months of fighting and that Germany would have won if the United States had not entered the conflict. The former crown prince disclaimed all responsibility for the war for himself and for the former kaiser. He declared that Germany could not pay for the war and suggested that the League of Nations make Russia pay the war cost. Frederick William said he does not object to a German republic and that he does not want a crown, but wants to go to America to live "if the entente does not execute him."

SUFFRAGE BILL IN DANGER

Outlook for This Particular Measure Is Not Reassuring—Measure Favored by House and Governor.

Jefferson City, Mo., Feb. 10.—Equal suffrage advocates who succeeded in having the McKnight act, giving women the right to vote for presidential electors, placed on the senate calendar for engrossment, are confronted, with the threat that even it passes the legislature it will be held up by referendum. The measure is favored by the house and by the governor.

A referendum would suspend it at least until after the next election of a president and vice president, and in view of the tendency of voters to defeat acts submitted to them, the outlook for this particular measure is not considered reassuring. The people defeated equal suffrage at the polls recently and every senator from the large cities is opposed to it. The eighteen senators who voted to engross the McKnight bill are: Belken of Madison, Browker of Vernon, Buford of Reynolds, Brownlee of Lin, Cunningham of Shannon, Duncan of Lincoln, Glick of Holt, Gray of Jasper, Harris of Boone, Harrison of Dunklin, Livesay of Morgan, McClintic of Monroe, McKnight of Gentry, Mayes of Pemiscot, Pickett of Grundy, Stark of Cass, Wix of Bates and Young of Caldwell.

These make up a constitutional majority, without a vote to spare.

Daily Health Talks

GOING BACK TO NATURE.

BY DR. W. LUCAS.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made up of Mayapple, leaves of Aloe, root of Jalap, into little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need right now.

"What the Army Owes to Red Cross Help."

The greatest word in the vocabulary of the professional Medical Officer is sanitation. Sanitation means cleanliness. And if order is heaven's first wish for the world, cleanliness must certainly be its second.

That the world may be clean! That is the way we view the great task of the Red Cross workers of the world. Clean physically, clean mentally, clean morally—I can think of no more inspiring or practical gospel for humanity than that. **And the Red Cross is** its evangelist. If such a service is needed by the world in general, how much more is it needed by an army in action! It is commonplace that our greatest enemy in this war was not the Germans, but dirt. Never before have soldiers had to fight so much exposed to dirt and filth. And yet never has a great war been won with so little suffering and death caused directly by this enveloping contagion. For this achievement and there has been no greater in the late war in Europe—we have to thank most of all the American Red Cross.

The story of the cleaning influence of the Red Cross workers in France is too long to attempt to tell with any completeness. It has been an enterprise as vast as the war itself. From the beginning it has done those things which the Army Medical Corps wanted done but could not do itself. Without the Red Cross the Army Medical Corps could not have done its work.

General Pershing said: "The women of the United States deserve a large share of the credit for the success of the American forcees."

Our Army officers have admired not only the spirit but the efficiency of the American Red Cross organization. It provided an inexhaustable store of supplies; it possessed a remarkable facility for adapting itself to any emergency, however unexpected; and its personnel always evinced the finest readiness for co-operation.

The millions of Surgical Dressings, Knitted articles, refugee garments, and other supplies contributed—for these things alone it would have deserved the Army's unstinted praise. It sent over a quarter of a million Surgical Dressings, and enough sweaters for every man to possess one.

Probably the greatest single service rendered by the Red Cross home forces was the supply of trained nurses it furnished our hospitals.

Chapters are again advised that no wool is to be disposed of in any way whatsoever. It is not to be returned to the Bureau of Supplies, nor is it to be sold or disposed of locally. Full instructions for the disposition of this material will be sent out within a short time and until such istructions arrive, time and until such instructions arrive, all yarn is to be held intact in the chapters.

Overseas Christmas Packages.

National Headquarters advises that where it has been impossible, for various reasons, to deliver the Christmas boxes to soldiers, overseas, and the name of the sender is shown on the outside wrapper, the Post Office Department, as a special service to the Red Cross, is returning these packages to the sender. The fact that the package did not reach the person addressed is not cause for alarm, but simply means the mail, at that time, was unable to reach him and rather than deliver the box to the wrong person the government has arranged to return it to the sender without postage.

MRS. M. E. HOYLE HAS GAINED 30 POUNDS

I've Never Found Anything to Equal Tanlac, She Says—Troubles Overcome.

"If I could speak with everybody personally who has stomach trouble and rheumatism," said Mrs. M. E. Hoyle of 1329 Pennsylvania avenue, Kansas City, Mo., "I would advise them to take Tanlac, for I have tried it myself, and have never found anything to equal it. I have suffered with rheumatism during the past ten years until I thought I would go distracted. The pain would extend from my hips down to my ankles, the muscles and leaders felt like they were drawn, my knees were so stiff I could hardly bend over, and many a night the pain was so severe that I could hardly keep from crying. My appetite was very poor and my stomach was so out of order that what little I did eat made me miserable. I suffere dterribly from indigestion and would bloat up so badly from the gas on my stomach that I could scarcely breathe, and there was also a dull aching pain in the pit of my stomach. My complexion was very bad—sallow and yellow looking—and I just felt badly all the time.

"But Tanlac has been a wonderful blessing to me and no one could see the change that has taken place in me during the past five weeks and doubt it being a great medicine. All my rheumatic pains and stiffness is gone now, and you may know I feel like a new person. My appetite is splendid, I am never bothered with indigestion or gas any more, no matter what I eat, and my color is fine. Not only have I been relieved of rheumatism and stomach trouble but I have also gained thirty pounds in weight, besides. Now, these are my reasons for thinking so well of Tanlac and I will gladly tell anyone who cares to call on me what I have found out by experience about it."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction.—Adv.

SCIENCE MAKES THEM DURABLE

So—These Soles Save You Shoe Money

"I have been wearing my shoes with Neolin Soles nearly a year, and they are apparently in as good condition as when I bought them."—written August, 1918, by W. H. Cocke, Officer, A.E.F., France.

Only Neolin Soles could endure a test like this. That they do so is because of the tough durability built into them by a scientific process. To cut your shoe bills down, buy shoes with these long-wearing soles. They come in many styles for men, women, and children.

Remember—Neolin Soles are flexible and waterproof, too, and are available everywhere for re-soling. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

It's a True Story.

Sh! don't tell! There is going to be a wedding in town real soon. The bride-to-be has ABSOLUTELY refused to tell one single thing about it. The other night her co-employes in the store where she had been working decided to give a movie party in her honor. Late that evening, the bride-to-be telephoned it was impossible for her to go with the crowd. They immediately concluded the prospective groom had arrived in town and the bride-to-be wouldn't appear out in "sassiety" and run the gamut of questions and stares from her girl friends so soon before the wedding. Well, the crowd had the party and after the show went to the bride's home, was told she was at her brother's, hiked to the brother's home and cornered them fair and the blushing bride had to introduce the bashful groom to the whole crowd, proprietor, clerks, Mary and Johnnie and everybody, and they all had a grand time.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

FOR **THREE TIRES** AND A LARGE BLOW-OUT REPAIRED IN A TUBE.

A customer gave us a check yesterday for $30.80 for retreading two 30x3½ tires with Firestone non-skid treads, one 30x3 rebuilt tire, and repairing a large blow-out in an inner tube.

These tires carry the same guarantee as new tires in proportion to cost and hundreds of our retreaded and rebuilt tires give MILE FOR MILE with new standard tires.

If you have never investigated our tire repair and rebuilding plant, it will pay you to do so before you buy new tires this spring. No doubt the tires you have on your car can be rebuilt and made to give as many more miles service as you have already gotten from them, and the cost of rebuilding or retreading will be only about ONE-HALF as much as new tires.

Today we are retreading and rebuilding three times as many tires as we did a year ago and about seven tires to every one we rebuilt two years ago.

Such growth can only be attributed to the use of the very best materials, the latest and most up-to-date equipment and careful workmen, combined with a business policy that guarantees every customer a full return in tire milegae for every dollar paid us.

FRANK BENGE FOUND GUILTY

Was Charged With Violation of Booze Law—Fined and Paroled—Speculation as to Disposition of Liquor.

Judge John M. Dawson rendered a decision in the case of Frank Benge, charged with storing liquor, in circuit court Saturday afternoon, in which Benge was found guilty and his fine placed at $300. A parole was granted on payment of costs in the case.

Benge was arrested last fall by Sheriff Dowden, following the finding of some five or six hundred quarts of liquor stored in a cave on the Mike McGettigan farm north of town and on which Benge was a tenant. The liquor was taken by the sheriff and is now stored in the vault in his office. It was reported several times that an effort would be made by the owners of the liquor to recover it from the sheriff but no action has ever been started.

Sheriff Dowden has accumulated a considerable quantity of "red licker" and there has been a deal of speculation as to what disposition will be made of the stuff.

THE TAX QUESTION

GARDNER'S PLAN RECOMMENDED BY COMMISSION IN 1907

POINT OUT ADVANTAGES

Complete Separation of Sources of State and Local Revenue Would Result in Practical Home Rule.

Jefferson City, Mo., Feb. 10.—While the bill introduced by Representative Wilson of Henry county, a democrat and a farmer, to abolish the state tax commission, was ordered engrossed by the house with only one dissenting vote, and would undoubtedly be easily passed if it were to come before that body now for final action, it is not considered likely it would receive such speedy action in the senate.

While Gov. Gardner's new tax proposal is a virtual abandonment of the commission, it is believed before the bill gets final action in either house or senate, some of its friends will make a fight to continue it. It is likely members of the state board of equalization, which undid the work of the commission on valuation, will be summoned to explain their action.

The report of the tax commission on valuation will be submitted to the governor the latter part of this month, and he will send a special message to the legislature that is expected to be an indorsement, in part, of its work, though he has decided to abandon the system of taxation for which the commission has been working. It is thought by many friends of the governor he is intending to recommend that the work of the commission be continued in modified form as an aid to local taxing bodies, if his new plan of separating sources of taxation is adopted.

It is pointed out by Gov. Gardner that his new tax plan was recommended in 1907 by a commission appointed by former Gov. Folk. This commission was composed by Frederick N. Judson of St. Louis, Judge William E. Williams of the supreme court, former Attorney General E. C. Crow, Attorney General and afterwards Governor, Herbert S. Hadley, and Prof. Loeb of the state university, and John H. Bothwell of Sedalia.

The commission recommended a constitutional amendment. This amendment later was submitted to the people and failed in adoption. Gov. Gardner does not believe that in view of the supreme court decision on the income and corporation franchise taxes, a constitutional amendment to change the taxing system is necessary. The only constitutional limitation is that the rate for state taxes shall not exceed 15 cents on the $100. It is not mandatory on the legislature to raise a state tax.

The commission in its report, in 1907, said regarding the proposed tax system:

"We are all agreed that the first step in any tax reform is the separation of the sources of state and local revenues. This change would not require the exemption of any class of property from taxation.

"The advantages which, in our opinion, would result from the proposed change, are as follows:

"First. Complete separation would abolish at once the expense, friction and vain attempt to equalize among different counties.

"Second. When separation is effected it will be possible to place each tax in that branch of the government, local or state, which is best adapted to administer it.

"Third. The local taxing districts, the counties and cities of the state, will then have practical home rule in matters relating to taxation.

"Fourth. Equality in taxation, both state and local, can then be secured by making all taxation effective."

MAN NEEDED FOR SCOUT WORK

Two Troops Were Reorganized Yesterday in Order to Carry Out Scout Program.—A Contest.

Troops 1 and 2, Boy Scouts, have started a membership drive contest in an effort to bring both troops to the maximum number of thirty-two scouts. The contest was started last fall but because of the "flu" epidemic was dropped for a time. The contest will eend with the first meeting night in March. The winning troop will be given a handsome troop flag, the winning patrol will be given a patrol flag and the Scout who secures the largest number of new applications will be given a prize of scout equipment.

At a meeting yesterday afternoon the two troops were reorganized and each troop now has the same number of members. The boys would appreciate the gift of any article of furniture or decoration that would help to make their new rooms comfortable and attractive. Assistant scoutmasters are also needed—older men who take an interest in boys and who can spare some time to the work.

VICTORY BUT FOR THE U.S.

Declares Germany Would Have Won If Yanks Hadn't Stepped In—Makes Some Remarkable Statements.

Weiringen, Holland, Feb. 10.—One of the most remarkable statements on the war yet coming from Frederick William, late crown prince of Germany, who is living here, was secured by the International News Service. Among the striking features of the statement made by him were that he wanted to make peace after the first two months of fighting and that Germany would have won if the United States had not entered the conflict. The former crown prince disclaimed all responsibility for the war for himself and for the former kaiser. He declared that Germany could not pay for the war and suggested that the League of Nations make Russia pay the war cost. Frederick William said he does not object to a German republic and that he does not want a crown, but wants to go to America to live "if the entente does not execute him."

SUFFRAGE BILL IN DANGER

Outlook for This Particular Measure Is Not Reassuring—Measure Favored by House and Governor.

Jefferson City, Mo., Feb. 10.—Equal suffrage advocates who succeeded in having the McKnight act, giving women the right to vote for presidential electors, placed on the senate calendar for engrossment, are confronted, with the threat that even it passes the legislature it will be held up by referendum. The measure is favored by the house and by the governor.

A referendum would suspend it at least until after the next election of a president and vice president, and in view of the tendency of voters to defeat acts submitted to them, the outlook for this particular measure is not considered reassuring. The people defeated equal suffrage at the polls recently and every senator from the large cities is opposed to it. The eighteen senators who voted to engross the McKnight bill are: Belken of Madison, Browker of Vernon, Buford of Reynolds, Brownlee of Lin, Cunningham of Shannon, Duncan of Lincoln, Glick of Holt, Gray of Jasper, Harris of Boone, Harrison of Dunklin, Livesay of Morgan, McClintic of Monroe, McKnight of Gentry, Mayes of Pemiscot, Pickett of Grundy, Stark of Cass, Wix of Bates and Young of Caldwell.

These make up a constitutional majority, without a vote to spare.

Daily Health Talks

GOING BACK TO NATURE.

BY DR. W. LUCAS.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made up of Mayapple, leaves of Aloe, root of Jalap, into little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need right now.

Red Cross News From Nodaway Auxiliaries

(Note:—Please report or send all news of Red Cross Activities to the editor of this column)

"What the Army Owes to Red Cross Help."

The greatest word in the vocabulary of the professional Medical Officer is sanitation. Sanitation means cleanliness. And if order is heaven's first wish for the world, cleanliness must certainly be its second.

That the world may be clean! That is the way we view the great task of the Red Cross workers of the world. Clean physically, clean mentally, clean morally—I can think of no more inspiring or practical gospel for humanity than that. And the Red Cross is its evangelist. If such a service is needed by the world in general, how much more is it needed by an army in action! It is commonplace that our greatest enemy in this war was not the Germans, but dirt. Never before have soldiers had to fight so much exposed to dirt and filth. And yet never has a great war been won with so little suffering and death caused directly by this enveloping contagion. For this achievement and there has been no greater in the late war in Europe—we have to thank most of all the American Red Cross.

The story of the cleaning influence of the Red Cross workers in France is too long to attempt to tell with any completeness. It has been an enterprise as vast as the war itself. From the beginning it has done those things which the Army Medical Corps wanted done but could not do itself. Without the Red Cross the Army Medical Corps could not have done its work.

General Pershing said: "The women of the United States deserve a large share of the credit for the success of the American forcees."

Our Army officers have admired not only the spirit but the efficiency of the American Red Cross organization. It provided an inexhaustable store of supplies; it possessed a remarkable facility for adapting itself to any emergency, however unexpected; and its personnel always evinced the finest readiness for co-operation.

The millions of Surgical Dressings, Knitted articles, refugee garments, and other supplies contributed—for these things alone it would have deserved the Army's unstinted praise. It sent over a quarter of a million Surgical Dressings, and enough sweaters for every man to possess one.

Probably the greatest single service rendered by the Red Cross home forces was the supply of trained nurses it furnished our hospitals.

Chapters are again advised that no wool is to be disposed of in any way whatsoever. It is not to be returned to the Bureau of Supplies, nor is it to be sold or disposed of locally. Full instructions for the disposition of this material will be sent out within a short time and until such istructions arrive, time and until such instructions arrive, all yarn is to be held intact in the chapters.

Overseas Christmas Packages.

National Headquarters advises that where it has been impossible, for various reasons, to deliver the Christmas boxes to soldiers, overseas, and the name of the sender is shown on the outside wrapper, the Post Office Department, as a special service to the Red Cross, is returning these packages to the sender. The fact that the package did not reach the person addressed is not cause for alarm, but simply means the mail, at that time, was unable to reach him and rather than deliver the box to the wrong person the government has arranged to return it to the sender without postage.

MRS. M. E. HOYLE HAS GAINED 30 POUNDS

I've Never Found Anything to Equal Tanlac, She Says—Troubles Overcome.

"If I could speak with everybody personally who has stomach trouble and rheumatism," said Mrs. M. E. Hoyle of 1329 Pennsylvania avenue, Kansas City, Mo., "I would advise them to take Tanlac, for I have tried it myself, and have never found anything to equal it. I have suffered with rheumatism during the past ten years until I thought I would go distracted. The pain would extend from my hips down to my ankles, the muscles and leaders felt like they were drawn, my knees were so stiff I could hardly bend over, and many a night the pain was so severe that I could hardly keep from crying. My appetite was very poor and my stomach was so out of order that what little I did eat made me miserable. I suffere dterribly from indigestion and would bloat up so badly from the gas on my stomach that I could scarcely breathe, and there was also a dull aching pain in the pit of my stomach. My complexion was very bad—sallow and yellow looking—and I just felt badly all the time.

"But Tanlac has been a wonderful blessing to me and no one could see the change that has taken place in me during the past five weeks and doubt it being a great medicine. All my rheumatic pains and stiffness is gone now, and you may know I feel like a new person. My appetite is splendid, I am never bothered with indigestion or gas any more, no matter what I eat, and my color is fine. Not only have I been relieved of rheumatism and stomach trouble but I have also gained thirty pounds in weight, besides. Now, these are my reasons for thinking so well of Tanlac and I will gladly tell anyone who cares to call on me what I have found out by experience about it."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction.—Adv.

It's a True Story.

Sh! don't tell! There is going to be a wedding in town real soon. The bride-to-be has ABSOLUTELY refused to tell one single thing about it. The other night her co-employes in the store where she had been working decided to give a movie party in her honor. Late that evening, the bride-to-be telephoned it was impossible for her to go with the crowd. They immediately concluded the prospective groom had arrived in town and the bride-to-be wouldn't appear out in "sassiety" and run the gamut of questions and stares from her girl friends so soon before the wedding. Well, the crowd had the party and after the show went to the bride's home, was told she was at her brother's, hiked to the brother's home and cornered them fair and the blushing bride had to introduce the bashful groom to the whole crowd, proprietor, clerks, Mary and Johnnie and everybody, and they all had a grand time.

$30.80

FOR **THREE TIRES** AND A LARGE BLOW-OUT REPAIRED IN A TUBE.

A customer gave us a check yesterday for $30.80 for retreading two 30x3½ tires with Firestone non-skid treads, one 30x3 rebuilt tire, and repairing a large blow-out in an inner tube.

These tires carry the same guarantee as new tires in proportion to cost and hundreds of our retreaded and rebuilt tires give MILE FOR MILE with new standard tires.

If you have never investigated our tire repair and rebuilding plant, it will pay you to do so before you buy new tires this spring. No doubt the tires you have on your car can be rebuilt and made to give as many more miles service as you have already gotten from them, and the cost of rebuilding or retreading will be only about ONE-HALF as much as new tires.

Today we are retreading and rebuilding three times as many tires as we did a year ago and about seven tires to every one we rebuilt two years ago.

Such growth can only be attributed to the use of the very best materials, the latest and most up-to-date equipment and careful workmen, combined with a business policy that guarantees every customer a full return in tire milegae for every dollar paid us.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.
